

Seminars, 20 and 22 February 2024

Simulation of plastic deformation and heat treatment of the metals, extrusion process optimization, quality control, automatization

Dear colleagues,

SpaceCAD invite you in seminar “QForm UK - solution for metal forming simulation, heat treatment and extrusion processes”. Seminars will be held with courtesy of TU Sofia, faculty of "Industrial Technologies" and TU Sofia - Plovdiv branch, Faculty of "Mechanical and Instrumentation Engineering"

Technical University Sofia	Technical University Sofia – branch Plovdiv
Time 10.00 – 12.00	Time 14.00 – 16.00
Data: 20 February 2024	Data: 22 February 2024
Place : National Center for Mechatronics and Technologies, Tsvetan Lazarov Hall, block 8	Place : Fourth building, room 4326, floor 3, Tsanko Dyustabanov St., 25

PROGRAM

9:30 / 13:30 Registration

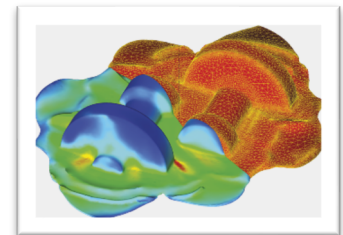

Welcome

Introducing QForm Group

QForm UK – and benefits

Plastic deformation simulation

Heat treatment simulation and structure prediction

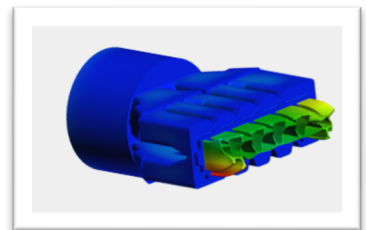

11:00 / 15:00 Coffee break

QForm UK Extrusion - Simulation of metal flow, tool stresses, aluminium profile cooling and predicted structure

User presentation Technical University Sofia

QForm UK User presentations

Questions and answers

Registration : <https://www.spacecad.bg/za-spacecad/novini>

Contacts :

Plamena Chipilska : 00359888 501812/ plamena@spacecad.bg

Atanas Yordanov : 00359886 316908/ atanas@spacecad.bg

WE ARE WAITING FOR YOU !
